

Serial No.: 09/936,794

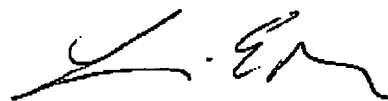

Remarks

Again, the Examiner's time on this case is appreciated. This amendment is submitted in accordance with our discussion summarized in the Interview Summary of December 6, 2005.

This 312 amendment also responds to the Interview Summary mailed December 6, 2005, in which the substance of the interview is considered to be adequately and accurately set forth by the Examiner. This said, it is, thus, believed that no further response to the substance of the interview is necessary. However, kindly advise the undersigned if this is incorrect.

Pursuant to the provisions of 37 C.F.R. 1.312(a), the present amendment is being filed prior to the payment of the issue fee for the present application. Since the amendment simply corrects an inadvertent error, raises no new issues, and more completely describes that which applicants are entitled to claim, entry thereof is respectfully requested.

Respectfully submitted,

Lainie E. Parker
